August 24, 2010

Honorable District Judges of Harris County and Honorable Members of the Harris County Commissioners Court

The Harris County Auditor's Office (the "Auditor's Office") is pleased to present the Basic Financial Statements of the Harris County Toll Road Authority Enterprise Fund (the "Authority"), a department of Harris County, Texas (the "County") for the fiscal year ended February 28, 2010. This report is submitted in accordance with Section 114.025 of the Texas Local Government Code and was prepared by the staff of the County Auditor's Office.

The report consists of management's representations concerning the finances of the Authority. Therefore, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. We believe the information and data contained herein is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the Authority in accordance with generally accepted accounting principles in the United States of America ("GAAP"). All disclosures necessary to enable the reader to gain an understanding of the Authority's financial activities have been included, beginning with Management's Discussion and Analysis ("MD&A") on page 7.

Management of the Authority has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse, and to compile sufficient reliable information for the preparation of the Authority's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Authority's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements are free from material misstatement.

The Authority's financial statements were audited by Deloitte & Touche LLP, an independent audit firm. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Authority for fiscal year ended February 28, 2010 are free of material misstatement. The independent auditor concluded based upon the audit that there was a reasonable basis for rendering an unqualified opinion that the Authority's financial statements are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

#### PROFILE OF THE AUTHORITY

#### History

The Harris County Toll Road Authority was established in 1983 by the Harris County Commissioners Court pursuant to Chapter 284 of the Texas Transportation Code. Also in 1983, Harris County voters authorized issuance of up to \$900 million in bonds to construct, operate and maintain toll roads in Harris County. The first two components of the toll road system, the Hardy Toll Road and the Sam Houston Tollway-West were completed in 1987 and 1990 respectively. In 1994, the County purchased the Jesse H. Jones Memorial Bridge toll facility from the Texas Turnpike Authority, which was renamed the Sam Houston Ship Channel Bridge. In 2004, the Harris County Toll Road Authority opened the Westpark Tollway, and in April 2009, the Katy Managed Lanes were opened for full operations.

### **Authority Structure and Services**

The Authority, a division of the County's Public Infrastructure Department, is an enterprise fund of the County and relies on charges from users of the toll road system to fund operations, debt service, and future projects. Led by its Executive Director, Art Storey, the Authority is organized under its Director, Peter Key, and operates through multiple divisions that include: Toll Operations, Roadway and Facilities Maintenance, Engineering, Information Technology (includes electronic toll collection systems), Customer Service (includes EZ Tag services), Finance, Legal, Human Resources, Special Projects, Communications, and Incident Management.

### **Budget Process**

In accordance with Chapter 111 of the Local Government Code, the County prepares and adopts an annual operating budget which serves as a financial plan for the Authority for the new fiscal year beginning March 1. After adoption of the budget by Commissioners Court, the County Auditor is responsible for ensuring expenditures are made in compliance with budgeted appropriations. The level of budgetary control for the General Fund is at the department level; for other funds budgetary control is implemented at various levels. For example, budgetary control for debt service funds is at the individual bond issue level. Commissioners Court may also adopt supplemental budgets for the limited purposes of spending grant or aid money, for capital projects through the issuance of bonds, intergovernmental contracts, and new source revenue not anticipated at budget adoption. Purchase orders and contracts are not valid until the County Auditor certifies availability of funds for payment of the obligation. Encumbrance accounting is utilized to ensure effective budgetary control and accountability, and unencumbered appropriations lapse at year-end.

#### INFORMATION USEFUL IN ASSESSING ECONOMIC CONDITION

#### Local Economy

The global recession along with weak energy prices have curtailed the County's robust employment growth. Houston was one of the last major metropolitan areas in the United States to slip into the recent global recession and it was one of the first to begin to recover. The Houston – Sugar Land – Baytown Metropolitan Area experienced modest job growth during the first quarter of 2010. Most of the job growth occurred in the following sectors: professional and business services (6,600 jobs); food services and drinking places (5,600 jobs); and health care and social assistance (4,200 jobs). However, even with the recent job growth, the Houston – Sugar Land – Baytown Metropolitan Area had a twelve-month net loss of 40,900 jobs as of April 2010.

Today, Harris County's economy is largely based on a broad spectrum of industries including:

- Oil and gas exploration
- Basic petroleum refining
- Petrochemical production
- Medical research and health care delivery

- High technology computers, aerospace, environmental, etc.
- Government city, county, state and federal (i.e. NASA)
- International import & export
- Commercial fishing
- Agriculture
- Education
- Banking and finance
- Manufacturing and distribution
- Related service industries

The Houston Association of Realtors reported an 8.2 percent decline in closings during 2009 with the total dollar sales volume falling 10.7 percent. In April 2010, the average sales price for a single-family home was \$206,414, which was 6.8 percent higher than in April 2009. The median price was \$153,500, up 2.4% from April 2009. Sales of foreclosed properties increased 3.9 percent in April compared with one year earlier.

Catalysts for growth in Harris County, the Port of Houston and the Houston Ship Channel are vibrant components of the regional economy. The Port of Houston is a 25-mile assembly of public and private facilities along the Houston Ship Channel. In November 1999, Harris County voters approved a \$387 million bond issue for the construction of a new container facility at the Port's Bayport Terminal. The opening phase of the project celebrated its grand opening in February 2007. The Bayport facility is expected to generate almost 12,000 jobs in its first ten years of operation and to generate nearly \$1 billion in new business revenues and more than \$40 million in new tax revenues annually.

In addition to the County's moderate climate and diverse economic base, it offers a modern and efficient infrastructure for people working and doing business in the County. This includes local government that encourages business development, high capacity freeways, major rail lines, and state of the art telecommunication services. George Bush Intercontinental Airport, located approximately 23 miles north of downtown Houston, currently ranks third in the country for scheduled non-stop domestic and international service.

Harris County is the nation's third most populous county, ranking behind Los Angeles County, California and Cook County, Illinois. Twenty-five companies on the 2010 *Fortune 500* list are headquartered in Houston. Only two metropolitan statistical areas have more *Fortune 500* headquarters: New York with 70 and Chicago with 28.

Educational opportunities play a key role in Harris County's quality of life. The County has a number of acclaimed school districts and outstanding colleges and universities. Major institutions of higher learning include Rice University, Texas Southern University, University of Houston, University of St. Thomas and Houston Baptist University. Houston's two medical schools are the University of Texas Medical School and Baylor College of Medicine.

### Financial Policies and Long-Term Financial Planning

The County's financial policies also apply to the Authority. Some of the County's financial policies are:

- Despite a projected decline in resources, the County will attempt to maintain its policy for expenditures to be budgeted and controlled so that at the end of the fiscal year the minimum undesignated balance for operating funds will be as close as possible to 15% of fiscal year expenditures;
- Full disclosure and open lines of communications will be provided for rating agencies. A continuing goal is sustaining the County's AAA (Standard & Poor's) and Aaa (Moody's) and AAA (Fitch) debt rating with a stable outlook; and

• The County's investment policy has been adopted to establish policies and procedures that enhance opportunities for a prudent and systematic investment of County funds. The County's general objectives in investing its funds are: understanding the suitability of the investment to the financial requirements of the County, preservation and safety of principal, liquidity, marketability of the investment if the need arises to liquidate the investment before maturity, diversification of the investment portfolio, and yield. The "prudent person" standard has been adopted for managing the portfolio for the County. To ensure safety of public funds, the policy adheres to Chapter 2256 of the Texas Government Code, The Public Funds Investment Act, and the statutory requirements of Local Government Code 116.112.

Authority funds available for investment under the County's investment program as of February 28, 2010 totaled \$1,355 million with investment earnings of \$33.6 million for the fiscal year. The average yield and maturity of such investments were 1.84% and 839 days.

The County provides retirement, disability, and death benefits for all of its employees (excluding temporary) through a nontraditional defined benefit pension plan in the statewide Texas County and District Retirement System (TCDRS). The County has elected the annually determined contribution rate (ADCR) plan provisions of the TCDRS Act. The plan is funded by monthly contributions from both employee members and the employer based on the covered payroll of employee members. Under the TCDRS Act, the County's contribution rate is actuarially determined annually. The contribution rate payable by the employee members for fiscal year 2010 was 7%. In addition to providing retirement benefits, the County provides certain healthcare and life insurance benefits for retired employees. Additional information regarding the County's retirement plan and other post employment benefits can be found in Notes 9 and 10 of the notes to the financial statements.

### Major Initiatives

The Authority continues moving forward on projects authorized by Commissioners Court including Grand Parkway segments within Harris County, The Hardy Toll Road Downtown Connector, and the Sam Houston Tollway, Northeast.

#### **ACKNOWLEDGMENTS**

I wish to express my gratitude to the Commissioners Court, District Judges, and other County and District officials and departments for their interest and support in planning and conducting the financial affairs of the Authority in a responsible and professional manner.

#### REQUEST FOR INFORMATION

This financial report is designed to provide an overview of the Authority's finances for individuals who are interested in this information. Questions concerning any of the data provided in this report should be addressed to the County Auditor's Office, 1001 Preston Suite 800, Houston, Texas 77002. Additional financial information is provided on the County Auditor's webpage which can be accessed from the County's website, www.co.harris.tx.us.

#### INDEPENDENT AUDITORS' REPORT

County Judge Ed Emmett and Members of Commissioners Court of Harris County, Texas

We have audited the accompanying statement of net assets of the Toll Road Authority Enterprise Fund of Harris County, Texas (the "Toll Road Authority") as of February 28, 2010 and the related statements of revenues, expenses, and changes in net assets and of cash flows for the year then ended. These financial statements are the responsibility of the management of Harris County, Texas (the "County"). Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Toll Road Authority's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the respective financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1 to the financial statements, the basic financial statements referred to above present only the financial position and results of operation of the Toll Road Authority and are not intended to present the financial position and results of operations of the County, in conformity with accounting principles generally accepted in United States of America.

In our opinion, such financial statements present fairly, in all material respects, the financial position of the Toll Road Authority as of February 28, 2010, and its changes in net assets and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying Management's Discussion and Analysis, the Other Post Employment Benefits Schedule of Funding Progress, and the Texas County and District Retirement System – Schedule of Funding Progress are not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. This supplementary information is the responsibility of the County's

management. We have applied certain limited procedures, which consisted principally of inquires of management regarding the method of measurement and presentation of supplementary information. However, we did not audit such information and we do not express an opinion on it.

Our audit was conducted for the purpose of forming an opinion on the Toll Road Authority's basic financial statements. The introductory section and other information listed in the table of contents is presented for purpose of additional analysis and is not required part of the basic financial statements. This supplementary information is also the responsibility of the County's management. We have applied certain limited procedures, which consisted principally of inquires of management regarding the method of measurement and presentation of supplementary information. However, we did not audit such information and we do not express an opinion on it.

August 24, 2010

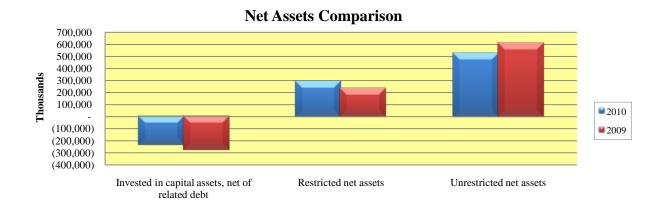

Deloitte & Touche LLP

This section of the Toll Road Authority Enterprise Fund of Harris County financial statements presents management's discussion and analysis ("MD&A") of the financial performance of the Harris County Toll Road Authority ("Authority") during the fiscal year ended February 28, 2010.

The Authority is an enterprise fund of Harris County, Texas (the "County") and is included in the County's financial statements. This analysis presents information about the Authority and its operations and activities only and is not intended to provide information about the entire County. Please read this section in conjunction with the financial statements and related footnotes following this section.

### **FINANCIAL HIGHLIGHTS**

- During fiscal year 2010, the Authority issued \$665,370,000 in revenue and refunding bonds with related debt service financed through toll revenues. Note 7 to the financial statements provides further details on the new debt issuances.
- Total net assets are comprised of the following:
  - (1) Invested in capital assets, net of related debt, a deficit of \$234,840,099, includes property and equipment, net of accumulated depreciation, and reduced for outstanding debt related to the purchase or construction of capital assets. This category of net assets increased \$39,099,456 from the previous year.
  - (2) Net assets of \$286,961,532 are restricted by constraints imposed from outside the Authority such as debt obligations, laws, or regulations. Restricted net assets increased by \$55,127,956 from the prior year due to an increase in the debt service reserve.
  - (3) Unrestricted net assets of \$526,002,066 represent the portion available to meet ongoing obligations of the Authority. Unrestricted net assets decreased \$81,920,198 from the previous year.

### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. The Authority's basic financial statements are comprised of 1) Financial statements and 2) Notes to the basic financial statements.

Financial Statements for the Authority include the Statement of Net Assets, the Statement of Revenues, Expenses and Changes in Net Assets, and the Statement of Cash Flows. Since the Authority is an enterprise fund, its financial statements are presented with a flow of economic resources measurement focus and uses the accrual basis of accounting. Funds are a self-balancing set of accounts used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is used to account for resources that are segregated for specific purposes in accordance with special regulations, restrictions, or limitations. The Authority is used to account for the acquisition, operation and maintenance of toll roads within Harris County.

*Notes to the Basic Financial Statements* provide additional information that is essential to a full understanding of the data provided in the financial statements. The notes can be found beginning on page 18 of this report.

### FINANCIAL ANALYSIS

The total net assets of the Authority exceeded liabilities at February 28, 2010 by \$578,123,499 and \$565,816,285 for fiscal year ended 2009. Net assets increased primarily due to an increase in Toll Revenues.

### Harris County Toll Road Authority Enterprise Fund Condensed Statement of Net Assets February 28, 2010 and February 29, 2009 (Amounts in thousands)

	2010	2009
Current restricted assets	\$ 1,393,176	\$ 1,121,001
Capital assets, net	1,976,024	1,798,621
Other non-current assets	90,004	80,588
Total assets	3,459,204	3,000,210
Current liabilities - restricted	181,460	147,538
Non-current liabilities	2,699,621	2,286,856
Total liabilities	2,881,081	2,434,394
Net assets:		
Invested in capital assets, net of related debt	(234,840)	(273,940)
Restricted net assets	286,961	231,834
Unrestricted net assets	526,002	607,922
Total net assets	\$ 578,123	\$ 565,816

The largest portion of the Authority's current fiscal year net assets is unrestricted net assets, which are used for the ongoing operations of the Authority.

Another portion of the Authority's current fiscal year net assets reflects its investments in capital assets (e.g.: land, improvements, buildings, equipment, and infrastructure) net of accumulated depreciation less any outstanding related debt used to construct or acquire those assets. The main use of these capital assets is to provide services to citizens; consequently, these assets are not available for future spending. There was an increase in related debt of \$426,612,479, an increase in unspent proceeds of \$288,308,842, while capital assets increased by \$177,403,093, causing an overall increase in capital assets net of related debt of \$39,099,456. Although the Authority's investment in its capital assets is reported net of related debt, it should be noted that resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The remaining balance of the Authority's current fiscal year net assets represents restricted net assets, which are subject to external restrictions on how they may be used. The Authority's restricted net assets are for capital projects, debt service and other purposes. The restricted net assets for other purposes may be used as follows: (1) payment or provision for payment of senior indebtedness payable as a first charge on revenues; (2) to pay project expenses; (3) to establish and maintain an operating reserve equal to two months' project expenses; (4) to pay any senior indebtedness not a first charge on the revenues; (5) to make transfer to debt service fund as required by the tax indenture; and (6) the balance, if any, shall be transferred to the surplus fund.

The following table reflects how the Authority's net assets changed during the year:

## Harris County Toll Road Authority Enterprise Fund Statement of Activities (In Thousands) For the Years Ended February 28, 2010 and February 28, 2009

	2010		2009	
Revenues:		-	•	_
Operating revenues:

Transfers out		(127,124)		(120,237)
Change in net assets		12,307		68,532
Net assets - beginning		565,816		497,284
Net assets - ending	\$	578,123	\$	565,816

#### Revenues and Contribution

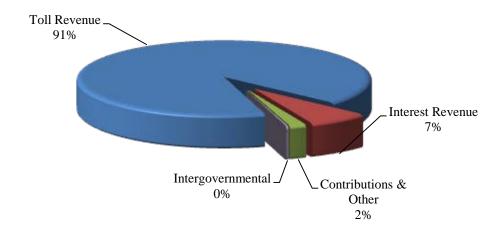

Total revenues and contributions for fiscal year 2010 were \$499,469,116, an increase of \$4,946,279 in revenues and contribution from fiscal year 2009 of \$494,522,837.

The largest revenue source is toll revenue of \$455,547,954 or 91% of total revenues and contributions. This revenue category increased \$13,532,537 from fiscal year 2009. This is primarily due to an increase in the toll rate on September 12, 2009 and the opening of the Katy Managed Lanes (\$3.8M). The biggest increases were noted at Sam Houston North (\$2.8M), Sam Houston South (\$3.6M) and Sam Houston Central (\$4.5M).

Contributions and other revenues totaled \$10,339,446 or 2% of total revenues and contributions. Contributions of \$7,221,460 for fiscal year 2010 decreased \$1,976,262 compared to fiscal year 2009 contributions of \$9,197,722. Other revenue consists of lease revenue of \$309,383 and miscellaneous revenue of \$1,644,187. Intergovernmental revenue of \$1,164,416 is less than 1% of total revenues and contributions.

Interest revenue for fiscal year 2010 totaled \$33,581,716 and comprises 7% of total revenues and contributions. This revenue source decreased \$7,671,306 from fiscal year 2009 of \$41,253,022. The decrease is attributable to lower interest rates.

### REVENUES BY SOURCE Year ended February 28, 2010

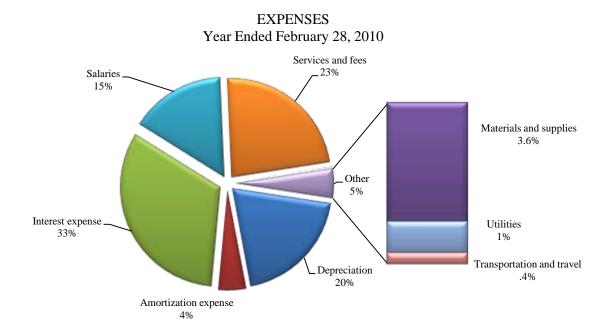

### Expenses

For fiscal year ended February 28, 2010, expenses totaled \$360,048,350, and increased \$54,294,847 from fiscal year 2009 of \$305,753,503.

Interest expense of \$116,887,849 is the Authority's largest expense category and is 33% of total expenses. Interest expense reflects the interest and fees incurred on outstanding debt balances and activities during the year.

Salaries of \$55,466,068 or 15% of total expenses increased by \$1,950,182 from fiscal year 2009. Services and fees of \$83,593,937 or 23% of total expenses increased by \$31,653,511 primarily due to an increase in maintenance and engineering services on roadways and facilities due to aging infrastructure, additional constable support, and banking fees related to credit card transactions.

The remaining 29% of expenses consisted of depreciation (20%) and amortization expense (4%) and other expenses (5%) and consists of outlays relative to materials and supplies, utilities, and transportation and travel. All of these expense categories are necessary for the operation of the toll road.

### **Transfers**

Transfers consisted of transfers out of \$127,123,534 and transfers in of \$9,982. The largest component of transfers out was a \$120 million allocation to fund non-toll County road or enhancement projects. The remaining \$7,054,833 was for payments for indirect cost allocation and \$68,701 was for a salary reimbursement to the Harris County General Fund. The transfers in was for a capital asset transfer.

### **CAPITAL ASSETS AND DEBT ADMINISTRATION**

### Capital Assets

The Authority's capital assets, net of accumulated depreciation as of February 28, 2010 and February 28, 2009, amounted to \$1,976,023,860 and \$1,798,620,767, respectively. These capital assets include land, construction in progress, intangibles, buildings, equipment, and infrastructure. The Authority's capital assets, net of accumulated depreciation/amortization increased \$177,403,093 from fiscal year 2009.

	Balance	Balance
	<b>February 28, 2010</b>	<b>February 28, 2009</b>
Land	\$ 29,575,717	\$ 18,293,567
Right-of-way	267,842,717	264,014,983
Construction in progress	397,559,639	221,083,075
System integration in progress	17,096,697	8,697,872
License agreement	237,500,000	237,500,000
Land improvements	4,246,045	2,741,917
Infrastructure	1,776,820,536	1,735,963,226
Other tangible assets	21,598,642	21,181,809
Buildings	16,851,174	20,384,030
Equipment	56,509,166	47,876,773
	2,825,600,333	2,577,737,252
Less: Accumulated depreciation/amortization	(849,576,473)	(779,116,485)
Totals	\$ 1,976,023,860	\$ 1,798,620,767

For further information regarding capital assets, see Note 6 to the financial statements.

### Long-term liabilities

At the end of the fiscal year, the balance of the Authority's total outstanding long-term liabilities (bonds, net of deferred amount on refunding) was \$2,795,251,728. Refer to Note 7 to the financial statements for further detail on the Authority's long-term liabilities.

	Outstanding at		(	Outstanding at
	February 28, 2010		Fe	bruary 28, 2009
Bonds payable	\$	2,783,578,440	\$	2,363,579,795
Compensatory time payable		1,314,920		1,299,289
OPEB obligation		10,358,368		7,245,523
Totals	\$	2,795,251,728	\$	2,372,124,607

The Authority has a continuing goal to upgrade the Authority's debt rating. The bond rating services of Moody's Investor's Service, Inc., Standard & Poor's Ratings Services, and Fitch IBCA, Inc. have assigned the Authority long term bond ratings of Aaa, AAA, and AAA, respectively, for the Unlimited Tax and Subordinate Lien Bonds and Aa3, AA-, and AA-, respectively, for the Senior Lien Revenue Bonds.

See Note 10 to the financial statements for further information on the County's OPEB obligation.

### **ECONOMIC FACTORS**

• Additional non-toll highways, roads and streets, or improvements and expansions to existing free highways, roads and streets that may be constructed by the County, TxDOT, the City of Houston or other public entities may adversely affect the usage of the toll road. TxDOT continues to improve and expand IH-45 and US 59. In particular, IH-45 offers free highway competition to the Hardy Toll Road. Improvements over the past few years to IH-45 from its interchange with the Sam Houston Tollway-West/North Section/Sam Houston Parkway to FM 1960 have enhanced mobility along that segment of the highway.

• Metro, a regional transit authority, currently operates an extensive bus fleet serving Harris County and all of the City of Houston. Metro offers "park-and-ride" services, which include free automobile parking at suburban Metro lots and bus service to and from Houston's central business district in competition with the Hardy Toll Road. Metro's "park-and-ride" service from its most distant lot near the intersection of IH-45 and FM 1960 to downtown Houston, utilizing IH-45's free "authorized vehicle lane", competes for a portion of the traffic that could otherwise be expected to utilize the Hardy Toll Road.

### **REQUEST FOR INFORMATION**

This financial report is designed to provide a general overview of the Authority's finances for all those with an interest in the Authority's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the County Auditor's Office, 1001 Preston, Suite 800, Houston, Texas 77002, telephone (713)755-6516, or visit the County's website at www.co.harris.tx.us.

### **BASIC FINANCIAL STATEMENTS**

# TOLL ROAD AUTHORITY ENTERPRISE FUND OF HARRIS COUNTY, TEXAS STATEMENT OF NET ASSETS FEBRUARY 28, 2010

ASSETS	
Current restricted assets:	d 150,000,105
Cash and cash equivalents Investments	\$ 168,983,185

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization - The Harris County Toll Road Authority (the "Authority") was created by Harris County, Texas, (the "County") by order of the Harris County Commissioners Court on September 22, 1983, with the Commissioners Court designated as the governing body and the operating board of the Authority. The Authority is a department and fund of the County and is charged with overseeing the acquisition, construction, improvement, operation and maintenance of the County toll road facilities (the "Toll Road Project"). The Commissioners Court has full oversight responsibility for the Authority, and the Toll Road Project is an integral part of the County's financial statements. Construction of the Hardy Toll Road, the Sam Houston Tollway, Westpark Tollway and Spur 90A Tollway and acquisition of the Jesse H. Jones Toll Bridge, now referred to as the "Sam Houston Ship Channel Bridge" (the "Toll Roads") have been financed with a combination of unlimited tax and subordinate lien revenue bonds and senior lien revenue bonds. When all of the debt service, as discussed in Note 7, has been paid or provided for in a trust fund, the Toll Roads will become a part of the State of Texas Highway System.

*Implementation of New Standards* - In the current year, the Authority implemented the following standards issued by the Governmental Accounting Standards Board ("GASB"):

GASB Statement No. 52, *Land and Other Real Estate Held as Investments by Endowments* ("GASB 52"), establishes consistent standards for the reporting of land and other real estate held as investments by essentially similar entities. Implementation of GASB 52 did not have an impact on the Authority's reporting disclosures.

GASB Statement No. 55, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments* (GASB 55"), is to incorporate the hierarchy of generally accepted accounting principles (GAAP) for state and local governments into the GASB's authoritative literature. Implementation of GASB 55 did not have an impact on the Authority's reporting disclosures.

GASB Statement No. 56, Codification of Accounting and Financial Reporting Guidance Contained in the AICPA Statements on Auditing Standards ("GASB 56"), is to incorporate into the GASB's authoritative literature certain accounting and financial reporting guidance presented in the American Institute of Certified Public Accountants' Statements on Auditing Standards. Implementation of GASB 56 is reflected in the Authority's reporting disclosures.

GASB Statement No. 57, *OPEB Measurement by Agent Employers and Agent Multiple-Employer Plans* ("GASB 57"), establishes standards for the measurement and financial reporting of actuarially determined information by agent employers with individual-employer OPEB plans that have fewer than 100 total plan members and by agent multiple-employer OPEB plans in which they participate. In addition, it clarifies requirements of Statements 43 and 45 related to coordination of the timing and frequency of OPEB measurements by agent employers and the agent multiple-employer OPEB plans in which they participate. The provisions of GASB 57 related to the use and reporting of the alternative measurement method are effective immediately. Implementation of these provisions of GASB 57 did not have an impact on the Authority's reporting disclosures.

Basis of Presentation and Measurement Focus- The accompanying basic financial statements have been prepared on the full accrual basis of accounting as prescribed by the GASB. Full accrual accounting uses a flow of economic resources measurement focus. Under this measurement focus, the Authority applies all GASB pronouncements as well as the Financial Accounting Standards Board ("FASB") pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

The Authority presents its financial statements in accordance with GASB 34 guidance for governments engaged in business-type activities. Accordingly, the basic financial statements of the Authority consist of Management's Discussion and Analysis ("MD&A"), Statement of Net Assets, Statement of Revenues, Expenses and Change in Net Assets, Statement of Cash Flows, and Notes to the Financial Statements.

<u>Enterprise Fund</u> – The financial statements of the Authority are presented on the flow of economic resources measurement focus and use the accrual basis of accounting. Revenues are recognized in the period earned. The Authority's operating revenues are derived from charges to users of the Toll Roads in the County. When both restricted and unrestricted resources are available for use, it is the Authority's policy to use restricted resources first, then unrestricted resources to the extent they are needed.

Expenses are recognized in the period incurred. The Authority's operating expenses consist primarily of direct charges attributable to the operations of the Authority, including depreciation. Interest expense and other similar charges not directly related to the Authority's operations are reported as non-operating expenses.

**Deposits and Investments** – Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date of 90 days or less from date of purchase. All investments are recorded at fair value based upon quoted market prices as of the Authority's fiscal year end, with the difference between the purchase price and market price being recorded as investment income.

**Restricted Assets** – Certain assets of the Authority are required to be segregated under terms of various bond indentures. These assets are legally restricted for certain purposes, including operations and maintenance, debt service and construction. The Authority purchased surety policies to satisfy certain reserve fund requirements. During the fiscal year ended February 28, 2010, the Authority was in compliance with these covenants.

In the financial statements, restricted net assets are reported for amounts that are externally restricted by 1) creditors (eg. bond covenants), grantors, contributors, or laws and regulations of other governments or 2) law through constitutional provision or enabling legislation.

*Inventories* – EZ tags are recorded as inventory based on the number of tags by type (sticker, license plate, or motorcycle) as of February 28, 2010 multiplied by the cost per tag type.

Capital Assets – Capital assets include land, construction in progress, intangibles, buildings, equipment and infrastructure that are used in the Authority's operations and benefit more than a single fiscal year. Infrastructure assets are long-lived assets that are generally stationary in nature and can typically be preserved for a significantly greater number of years than other capital assets. Infrastructure assets of the Authority include roads, bridges and right-of-way.

Capital assets of the Authority are defined as assets with individual costs of \$5,000 or more and estimated useful lives in excess of one year. Exceptions to the \$5,000 capitalization threshold are as follows: all land is capitalized, regardless of historical cost; the threshold for capitalizing buildings is \$100,000 and the threshold for infrastructure ranges from \$25,000 to \$250,000, depending on the asset.

All capital assets are stated at historical cost or estimated fair market value at the date of purchase. Donated fixed assets are stated at their estimated fair market value on the date donated. Depreciation is computed using the straight-line method over the estimated useful life of the asset ranging from 3 to 45 years. Roads are depreciated over a 30-year useful life. Equipment is depreciated over 3 to 20 years, depending on the type. Buildings are depreciated over 45 years.

The Authority capitalizes, as a cost of its constructed property, the interest expense and certain other costs of bonds issued for construction purposes less the interest earned on the proceeds of those bonds from the date of the borrowing until the date the property is ready for use. All interest expense, interest earnings and the amortization of related bond costs were capitalized until September 1987 when the first of four sections of the Toll Road were opened for operations. Prior to fiscal year 2001, net interest and other bond costs have been capitalized based on the percentage of miles of the uncompleted sections to the total miles of the project. Since fiscal year 2001, interest had been capitalized based on the weighted average accumulated expenses multiplied by the weighted average interest rate. Such capitalization increased the total cost of assets constructed by the Toll Road Project by \$5,042,261 during fiscal year 2010.

*Contributions* – Federal, State or other government contributions to the Toll Road project are recognized based on the project percentage of completion.

**Deferred Charges** - Deferred charges consist of bond issuance costs that are amortized on a straight-line basis over the term of the bonds.

**Premiums (Discounts) on Bonds Payable** - Premiums (discounts) on bonds payable are amortized using the effective interest method over the term of the bonds.

**Risk Management** - The Authority's risk-of-loss exposures include exposure to liability and accidental loss of real and personal property as well as human resources. Toll Road operations involve a variety of high-risk activities including, but not limited to, cash collections, construction and maintenance activities. The County's Office of Risk Management is responsible for identifying, evaluating and managing the Authority's risk in order to reduce the exposure from liability and accidental loss of property and human resources. The Authority is treated as a County department by the County's Risk Management Office and is assessed premiums and charges similar to those assessed to other County departments.

The Authority is covered by the Harris County workers' compensation program. The County is self-insured for workers' compensation medical and indemnity payments. Claims adjusting services are provided by a third-party administrative claims adjusting service. Interfund premiums on workers' compensation are determined by position class code, at actuarially determined rates.

The County has excess insurance coverage for workers' compensation and employer's liability. The retention (deductible) for the fiscal year ended February 28, 2010 was \$850,000 per occurrence. No claims settled during the last three fiscal years have exceeded this coverage.

Through the County, the Authority provides medical, dental, vision and basic life and disability insurance to eligible employees. The Authority pays the full cost of employee coverage and 50% of the cost of dependent premiums. The disability insurance will pay up to 50% of an employee's salary for two years with an employee option to extend the benefits period to age 65 and increase the percentage to 60%.

The Authority's group insurance premiums, as well as employee payroll deductions for premiums for dependents and optional coverages, are paid into the County's Health Insurance Management Fund, which in turn makes disbursements to contracted insurance providers based upon monthly enrollment and premium calculations.

Billings to the Authority for property insurance, professional liability insurance and crime and fidelity policies are handled through the County's Risk Management Fund as are payments to the insurance carriers. Claim payments made up to the deductible limit are expensed by the Authority when paid by the Risk Management Fund. Payments for the Authority's general, vehicle and property damage liability claims, for which the County is self-insured, are made through the Risk Management Fund and billed to the Authority.

**Compensated Absences** - Accumulated compensatory leave, vacation and sick leave are recorded as an expense and liability as the benefit accrues for the employee.

Employees accrue 9.75 days of sick leave per year. Sick leave benefits are recognized as they are used by the employees. Employees may accumulate up to 480 hours of sick leave. Unused sick leave benefits are not paid at termination. Employees accrue from three to ten hours of vacation per pay period depending on years of service and pay period type, standard versus extra. Employees may accumulate from 120 to 280 hours of vacation benefits, depending on years of service. Upon termination, employees are paid the balance of unused vacation benefits.

Nonexempt employees earn compensatory time at one-and-a-half times their full pay times the excess of 40 hours per week worked. The compensatory time balance for nonexempt employees may not exceed 240 hours. Hours in excess of the 240-hour maximum must be paid to the nonexempt employee at the rate of one and a half times the regular rate. Upon termination, nonexempt employees will be paid for compensatory time at their wage rate at time of termination. Exempt employees earn compensatory time at their regular rate of pay for hours worked in excess of 40 hours a week. Exempt employees can accumulate up to 240 hours of compensatory time. Upon termination, exempt employees are paid one-half of the compensatory time earned at the wage rate at the time of termination. Compensatory time is carried forward indefinitely.

*Statements of Cash Flows* – All highly liquid investments (including restricted assets) with a maturity of three months or less when purchased are considered to be cash equivalents.

**Bond Refunding Losses** - The difference between the reacquisition price and the net carrying amount of refunded debt is deferred and amortized in a manner that is systematic and rational over the remaining life of the old or new debt, whichever is shorter.

*Use of Estimates* - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

### 2. DEPOSITS AND INVESTMENTS

<u>Deposits:</u> Chapter 2257 of the Texas Government Code is known as the Public Funds Collateral Act. This act provides guidelines for the amount of collateral that is required to secure the deposit of public funds. Federal Depository Insurance (FDIC) is available for funds deposited at any participating financial institution with no maximum for demand deposits, time and savings deposits, and deposits pursuant to indenture. The Public Funds Collateral Act requires that the deposit of public funds be collateralized in an amount not less than the total deposit, reduced by the amount of FDIC insurance available.

The custodial credit risk for deposits is the risk that the Authority will not be able to recover deposits that are in the possession of an outside party. Deposits are exposed to custodial credit risk if they are not insured or collateralized. At February 28, 2010, the carrying amount of the Authority's demand and time deposits was \$6,718,589 and the balance per various financial institutions was \$0. The Authority's deposits are not exposed to custodial credit risk since all deposits are either covered by FDIC insurance or an irrevocable letter of credit with the Federal Home Loan Bank of Dallas, in accordance with the Public Funds Collateral Act.

<u>Investments:</u> Chapter 2256 of the Texas Government Code is known as the Public Funds Investment Act. This act authorizes Harris County to invest its funds pursuant to a written investment policy which primarily emphasizes the safety of principal and liquidity, addresses investment diversification, yield, and maturity.

The Harris County Investment policy is reviewed and approved annually by Commissioners Court. The Investment Policy includes a list of authorized investment instruments, a maximum allowable stated maturity by fund type, and the maximum weighted average maturity of the overall portfolio. Guidelines for diversification and risk tolerance are also detailed within the policy. Additionally, the policy includes specific investment strategies for fund groups that address each group's investment options and describes the priorities for suitable investments.

#### **AUTHORIZED INVESTMENTS**

Harris County funds (including Authority funds) may be invested in the following investment instruments provided that such instruments meet the guidelines of the investment policy:

- 1. Obligations of the U.S. or its agencies and instrumentalities.
- 2. Direct obligations of the State of Texas or its agencies and instrumentalities.
- 3. Collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States, with a stated final maturity of 10 years or less.
- 4. Other obligations the principal and interest of which are unconditionally guaranteed or insured by or backed by the full faith and credit of this state or the U.S.
- 5. Obligations of states, agencies, counties, cities, and other political subdivisions of any state rated as investment quality by a nationally recognized investment rating firm not less than A or its equivalent.
- 6. Certificates of deposit issued by a state or national bank domiciled in this state or a savings and loan association domiciled in this state that are guaranteed or insured by the FDIC or secured by authorized investments that have a market value of not less than the principal amount of the certificates.
- 7. Fully collateralized repurchase agreements as authorized by the Public Funds Investment Act.
- 8. Commercial paper with a stated maturity of 270 days or fewer from the date of issuance as authorized by the Public Funds Investment Act.
- 9. No-load money market mutual funds regulated by the SEC, with a dollar-weighted average stated maturity of 90 days or fewer and which include in their investment objectives the maintenance of a stable net asset value of \$1 per share as authorized by the Public Funds Investment Act.
- 10. Guaranteed Investment Contracts as authorized by the Public Funds Investment Act.
- 11. Public Funds Investment Pools as authorized by the Investment Act.

### Summary of Cash and Investments

The Authority's cash and investments are stated at fair value. The following is a summary of the Authority's cash and investments at February 28, 2010.

	1 otals
Cash and Cash Equivalents	\$ 168,983,185
Investments	1,199,710,023
<b>Total Cash &amp; Investments</b>	1,368,693,208

The table below indicates the fair value and maturity value of the Authority's investments as of February 28, 2010, summarized by security type. Also demonstrated are the percentage of total portfolio and the weighted average maturity in days for each summarized security type.

### RISK DISCLOSURES

<u>Interest Rate Risk:</u> All investments carry the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the County manages its exposure to interest rate risk is by purchasing a combination of shorter and longer term investments and by matching cash flows from maturities so that a portion of the portfolio is maturing evenly over time as necessary to provide the cash flow and liquidity needed for operations.

According to the County investment policy, no more than 25% of the portfolio, excluding those investments held for future capital expenditures, debt service payments, the Health Insurance Fund, bond fund reserve accounts, capitalized interest funds, Toll Road Renewal and Replacement, Public Improvement Contingency, District Clerk Registry, County Clerk Registry, and Harris County and Metro Joint Deposit Escrow Funds, may be invested beyond 24 months. Additionally at least 15% of the portfolio, with the previous exceptions, is invested in overnight instruments or in marketable securities which can be sold to raise cash within one day's notice. Overall, the average maturity of the portfolio, with the previous exceptions, shall not exceed two years. As of February 28, 2010, the Authority was in compliance with all of these guidelines to manage interest rate risk.

<u>Credit Risk and Concentration of Credit Risk</u>: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. The County mitigates these risks by emphasizing the importance of a diversified portfolio. All funds must be sufficiently diversified to eliminate the risk of loss resulting from over-concentration of assets in a specific maturity, a specific issuer, or a specific class of securities. In particular, no more than 50% of the overall portfolio may be invested in time deposits, including certificates of deposit, of a single issuer. Concentration by issuer for other investment instruments is not specifically addressed in the investment policy. However, the policy does specify that acceptable investment instruments must have high quality credit ratings and, consequently, risk is minimal.

The County's investment policy establishes minimum acceptable credit ratings for certain investment instruments. Securities of states, agencies, counties, cities and other political subdivisions must be rated as to investment quality by a nationally recognized investment rating firm as A or its equivalent. Money market mutual funds and public funds investment pools must be rated Aaa by Moody's Investor Rating Service.

<u>Custodial Credit Risk:</u> Investments are exposed to custodial credit risk if the investments are uninsured, are not registered in the County's name and are held by the counterparty. In the event of the failure of the counterparty, the County may not be able to recover the value of its investments that are held by the counterparty. As of February 28, 2010, all of the Authority's investments are held in the County's name.

<u>Foreign Currency Risk:</u> Foreign currency risk is the risk that fluctuations in the exchange rate will adversely affect the value of investments denominated in a currency other than the US dollar. The County Investment Policy does not list securities denominated in a foreign currency among the authorized investment instruments. Consequently, the Authority is not exposed to foreign currency risk.

#### FUND INVESTMENT CONSIDERATIONS

The Investment Policy outlines specific investment strategies for each fund or group of funds identified on the Harris County and Authority's financial statements. The two investment strategies employed by Harris County are the Matching Approach and the Barbell Approach. The Matching Approach is an investment method that matches maturing investments with disbursements. Matching requires an accurate forecast of disbursement requirements. The Barbell Approach is an investment method where maturities are concentrated

at two points, one at the short end of the investment horizon and the other at the long end. Additionally, the Investment Policy specifies average investment durations for each fund type. The investment strategies and maturity criteria are outlined in the following table.

		Avg Investment			Average
	Investment	<b>Duration Per Policy</b>	Maturity		Remaining Days
Fund Type	Strategy	(Days)		Amount	To Maturity
Toll Road Project Funds	Matching	1,080	\$	855,515,000	837
Toll Road Debt Service	Matching	1,080		146,752,000	92
Toll Road Renewal/Replacement	Matching	1,800		158,400,000	877
Toll Road Bond Reserve	Matching	Maturity of the bonds		80,120,000	5,910
Harris Co/Metro Joint Escrow	Matching/Barbell	5,400		34,000,000	1,119
Money Market Mutual Funds	N/A	N/A		80,257,470	N/A
			\$	1,355,044,470	

### 3. OTHER RECEIVABLES

Other receivables as of February 28, 2010 are comprised of credit card receivables and toll violations for EZ tag collections. The other receivables amount of \$3,261,351 is reported net of allowance for doubtful accounts of \$63,327,851.

Proprietary funds report deferred revenue in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the Authority reported \$31,178,003 in deferred revenues for unearned EZ tag revenues.

#### 4. NOTES RECEIVABLE

Notes receivable as of February 28, 2010 are comprised of the following:

	itstanding March 1, 2009	Issued			Receipts	Outstanding February 28, 2010	
Sam Houston Race Park Uptown Houston Notes receivable	\$ 121,301 1,144,376 1,265,677	\$	-	\$	(7,581) (259,663) (267,244)	\$	113,720 884,713 998,433

### 5. PREPAIDS AND OTHER ASSETS

Other assets as of February 28, 2010 are comprised of the following:

Prepaid surety expense	\$ 520,799
Prepaid office expenses	682,370
Prepaid land expense for Grand Parkway project	5,838,351
Advance funding for Beltway 8 project	380,000
Total	\$ 7,421,520

Advance payments were given to TxDOT for the Authority's funding participation for the Beltway 8 project. These advances are amortized and transferred to construction in progress based on the project percentage of completion.

### 6. CAPITAL ASSETS

Capital asset activity for the year ended February 28, 2010 was as follows:

	Balance March 1, 2009		Additions		Deletions		Transfers	Balance February 28, 2010		
		March 1, 2009		Additions		Detetions		Transiers	re	oruary 26, 2010

depreciated, net		1,286,531,270		(57,147,009)		(155,441)		34,720,270		1,263,949,090
Total capital assets, net	\$	1,798,620,767	\$	177,550,764	\$	(155,441)	\$	7,770	\$	1,976,023,860

The \$7,770 balance in the transfers column, is due to assets that were transferred from Harris County funds.

### <u>Intangible Assets – License Agreement</u>

On December 17, 2002, the Commissioners Court authorized a tri-party agreement among Harris County (acting through the Harris County Toll Road Authority), Texas Department of Transportation and Federal Highway Administration to participate in the reconstruction of a portion of the IH10 Katy Freeway. Under this agreement, the Authority funded \$237.5 million for the license to the real property within the limits of and for the right to operate the Toll Facility; and paid an additional \$12.5 million for the design and construction, and other allowable expenses related to the Toll Facility. Toll Revenues from the operation of the Toll Facility will be collected by the Authority until the County is paid in full. Amortization of this amount began when the project was completed and revenues were being collected in April 2009. The amortization will be based on revenues received less reimbursable expenses. The Toll Facility may revert to the State when the County has been fully paid the reimbursement from revenue or upon payment by the State to the County of an amount equal to the difference between the total amount of the reimbursement and the actual amount paid to the County as of the date of such reversion.

### 7. LONG-TERM LIABILITIES

The Authority has financed the Toll Road Projects with a combination of unlimited tax and subordinate lien revenue bonds, senior lien revenue bonds, and commercial paper. The proceeds from such bonds, including the interest earned thereon, are being used to finance the construction costs, the related debt service, and a portion of the maintenance and operating expenses.

Changes in the Authority's Long-Term Liabilities for fiscal year 2009-2010 were as follows:

	Outstanding Issued/		Paid/	Outstanding	<b>Due Within</b>	
	March 1, 2009	Increased	Decreased	February 28, 2010	One Year	
Senior Lien Revenue Bonds	\$ 1,699,305,000	\$ 665,370,000	\$ (228,035,000)	\$ 2,136,640,000	\$ 34,460,000

#### **B.** Covenants and Conditions

The Senior Lien Revenue Bonds are payable from operating revenues generated from the Toll Roads. The Tax Bonds are secured by and payable from a pledge of the County's unlimited ad valorem taxing power and are also secured by a pledge of and lien on the revenues of the Toll Roads, subordinate to the lien of the Senior Lien Revenue Bonds. The Authority has covenanted to assess a maintenance tax to pay project expenses if revenues, after paying debt service, are insufficient. The Authority also has covenanted to collect tolls to produce revenues at the beginning of the third fiscal year following completion of the Toll Roads equal to at least 1.25 times the aggregate debt service on all Senior Lien Revenue Bonds accruing in such fiscal year. The 1.25 revenue coverage covenant went into effect during fiscal year 1994. The revenue coverage ratio was 4.73 as of February 28, 2010.

### C. <u>Debt Service Requirements</u>

Total interest expense was \$116,887,849 for the fiscal year. The following are the debt service requirements for bonds payable:

Fiscal Year	Principal 2/28/2010	Capital Appreciation Bonds	Principal Value At Maturity	Interest	Total
2011	\$ 77,745,000	\$ 10,048,836	\$ 87,793,836	\$ 144,999,039	\$ 232,792,875
2012	81,880,000	7,629,049	89,509,049	140,781,238	230,290,287
2013	90,890,000	6,094,331	96,984,331	136,166,376	233,150,707
2014	104,135,000	1,820,239	1,820,239 105,955,239 123,574,622		229,529,861
2015	113,130,000	-	113,130,000	113,981,816	227,111,816

### **D.** Unissued Authorized Bonds

In an election held on September 13, 1983, the voters of the County endorsed using toll roads to alleviate the County's traffic problems by authorizing the County to issue up to \$900,000,000 of bonds secured by a pledged of its unlimited ad valorem taxing power. As of February 28, 2010, the unissued authorized bonds for the toll road project are \$17,673,000.

### E. Defeasance of Debt

In the current year and prior years, the Authority has defeased certain bonds by placing the proceeds of the refunding bonds in an irrevocable trust to provide for all future debt service on the refunded bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the financial statements. As of February 28, 2010, the outstanding principal balance of these defeased bonds was \$2,016,310,000.

### F. Debt Issuances

On May 14, 2009, the County issued \$215,455,000 Toll Road Senior Lien Revenue Bonds, Series 2009A to finance the construction of toll road projects, to fund the increase in the debt service reserve fund requirement resulting from the issuance of the bonds and to pay costs of such issuance. The annual interest rates range from 4.0% to 5.0%. The issuance had a premium of \$5,640,228. Interest accrues semiannually and the bonds mature in fiscal year 2038.

On June 5, 2009, Citibank and JP Morgan released two Federal Home Loan Mortgage Corp. bonds back to the County that had been pledged to cover the collateral threshold shortfall on two SWAPS. The SWAPS were the \$199,915,000 SWAP for the 2004B-2 Series bonds and the \$72,785,000 SWAPs for the 2007B Series bonds.

On June 9, 2009, the County terminated the two SWAPs with Goldman Sachs. The SWAPs notional amounts were \$200,000,000 and \$100,000,000. The SWAPs were not directly related to any bond issues. The County received \$1,000,000 from Goldman Sachs due to the fair value of the positions at the time.

On July 7, 2009, the County pledged a Federal Home Loan Mortgage Corp. bond to Citibank to cover the collateral threshold shortfall on the \$199,915,000 interest rate SWAP for the 2004B-2 Series bonds.

On August 13, 2009, the County issued \$199,915,000 Toll Road Senior Lien Revenue Refunding Bonds, Series 2009B to provide additional funds to pay qualifying costs of toll road projects, to partially refund and defease the County's outstanding Toll Road Senior Lien Revenue Bonds, Series 2004B and to pay costs of such issuance. The initial interest rate is 2.0%. The issuance had a premium of \$3,018,716. Interest accrues semiannually and the bonds mature in fiscal year 2021.

On December 30, 2009, the County issued \$250,000,000 Toll Road Senior Lien Revenue Bonds, Series 2009C to provide additional funds to pay qualifying costs of toll road projects, to fund the increase in the debt service reserve fund requirement resulting from the issuance of the bonds and to pay costs of such issuance. The annual interest rate is 5.0%. The issuance had a premium of \$18,516,850. Interest accrues semiannually and the bonds mature in fiscal year 2049.

### G. Commercial Paper

In addition to the outstanding long-term debt of the Toll Road Authority ("Toll Road"), the Commissioners Court has established a commercial paper program secured by and payable from Toll Road revenues. The commercial paper program consists of Harris County Toll Road Senior Lien Revenue Notes, Series E ("Notes") in an aggregate principal amount not to exceed \$200 million outstanding at any one time. As of February 28, 2010, the Toll Road has no outstanding commercial paper.

The purpose of the Series E Notes is to provide funding for costs of acquiring, constructing, operating and maintaining, and improving Toll Road Project components, as well as to fund reserves, pay interest during construction, refinance, refund, and renew the notes themselves, and fund issuance costs.

### H. Interest Rate Swap

The County entered an interest rate swap with Citibank, N.A., New York, relating to the Toll Road Authority, Series 2009B and the Senior Lien Revenue Refunding Bonds, Series 2007B. The County entered an interest rate swap with JPMorgan Chase Bank, National Association, relating to the Senior Lien Revenue Refunding Bonds, Series 2007B. The purpose of the swaps was to create a fixed cost of funds on certain maturities of the related bonds that is lower than the fixed cost achievable in the cash bond market.

### Terms:

	Citibank–Toll Road	Citibank-Senior Lien	JP Morgan Chase-Senior
	Authority, Series 2009B	Revenue Refunding	Lien Revenue Refunding
		Bonds, Series 2007B	Bonds, Series 2007B
Trade Date:	November 28, 2006	May 22, 2007	May 22, 2007
Effective Date:	August 15, 2009	June 14, 2007	June 14, 2007
Termination Date:	August 15, 2019	February 15, 2035	February 15, 2035
Initial Notional Amount: (a)	\$199,915,000	\$72,785,000	\$72,785,000
Authority Pays Fixed:	3.626%	4.398%	4.398%
Counterparty Pays Floating:	70% of 1 Month LIBOR	67% of 3 Month LIBOR	67% of 3 Month LIBOR
		+ .67%	+ .67%
Payment Dates:	The 15 <sup>th</sup> day of each	The 15 <sup>th</sup> day of February,	The 15 <sup>th</sup> day of February,
	month	May, August and	May, August and
		November	November
Collateral Threshold: (b)	(\$15,000,000) (c)	(\$15,000,000)	(\$15,000,000)
Fair Value as of 2/28/10:	(\$19,119,204)	(\$9,790,470)	(\$9,790,470)

- (a) The notional amount for the swaps amortizes to match the outstanding bond.
- (b) Collateral threshold represents the maximum exposure that the counterparty is required to accept without a pledge of collateral. The difference between the fair value and the collateral threshold must be covered by County collateral. The maximum collateral threshold ceiling is \$45,000,000.
- (c) FHLMC note with a \$15,000,000 par at 2.125%, has been transferred to Citibank as collateral under the terms of the swap agreements related to Toll Road Senior Revenue Refunding Bonds, Series 2009B.

Fair Value: Swaps are not normally valued through exchange-type markets with easily accessible quotation systems and procedures. The fair market value was calculated using information obtained from generally recognized sources with respect to quotations, reporting of specific transactions and market conditions and based on accepted industry standards and methodologies.

### I. Subsequent Debt Related Activity

On May 12, 2010, the County pledged a Federal Home Loan Mortgage Corp. (FHLMC), bond to Citibank to cover the collateral threshold shortfall on the \$199,915,000 interest rate SWAP for the 2009B Series bonds. The FHLMC bond pledged on July 7, 2009 was called by the issuer on April 2, 2010.

On July 1, 2010, the County pledged a Federal National Mortgage Association (FNMA) bond to Citibank to cover the collateral threshold shortfall on the \$199,915,000 interest rate SWAP for the 2009B Series bonds and a portion of the \$72,785,000 interest rate SWAP for the 2007B Series bonds. The FHLMC bond pledged on May 12, 2010 was returned.

On July 1, 2010, the County pledged a Federal National Mortgage Association (FNMA) bond to JP Morgan Chase to cover the collateral threshold shortfall the \$72,785,000 interest rate SWAP for the 2007B Series bonds.

On August 11, 2010, the County issued \$199,915,000 in Toll Road Senior Lien Revenue Refunding Bonds, Series 2010A to refund and defease the Toll Road Senior Lien Revenue Refunding Bonds, Series 2009B and to pay the costs of such issuance. The initial interest rate is 2.0%. The issuance had a premium of \$3,324,586. Interest accrues semiannually and the bonds mature in fiscal year 2021.

On August 13, 2010, the County pledged a Federal National Mortgage Association (FNMA) bond to JP Morgan Chase to cover the collateral threshold shortfall on the \$72,785,000 interest rate SWAP for the 2007B Series bonds. The FNMA bond pledged on July 1, 2010 was returned.

### J. Arbitrage Rebate Liability

The Tax Reform Act of 1986 established regulations for the rebate to the federal government of arbitrage earnings on certain local government bonds issued after December 31, 1985, and all local governmental bonds issued after August 31, 1986. Issuing governments must calculate any rebate due and remit the amount due at least every five years. There were no arbitrage rebate payments made during fiscal year 2009. As of February 28, 2010 there were no estimated liabilities for arbitrage rebate on enterprise debt.

#### 8. COMPENSATED ABSENCES PAYABLE

Changes in long-term compensated absences for the year ended February 28, 2010 were as follows:

I	Balance		Taken/		Balance		<b>Due Within</b>	
Mai	rch 1, 2009	Earned	Paid		February 28, 2010		One Year	
\$	1,299,289	\$ 691,261	\$	(675,630)	\$	1,314,920	\$	736,355

#### 9. RETIREMENT PLAN

**Plan Description** - The County provides retirement, disability, and death benefits for all of its employees (excluding temporary) through a non-traditional, defined benefit pension plan in the statewide Texas County and District Retirement System ("TCDRS"). The Board of Trustees of TCDRS is responsible for the administration of the statewide agent multiple-employer public employee retirement system consisting of 602 non-traditional defined benefit pension plans. TCDRS in the aggregate issues a comprehensive annual financial report ("CAFR") on a calendar-year basis. The CAFR is available upon written request from the TCDRS Board of Trustees at P.O. Box 2034, Austin, Texas 78768-2034.

Under the state law governing TCDRS enacted in 1991, effective January 1, 1992 the County selected a plan of benefits to provide in the future, while at the same time considering the level of the employer contribution rate required to adequately finance the plan. Effective January 1, 1995, the County adopted an annually determined contribution rate plan, for which the employer contribution rate is actuarially determined as a part of the annual actuarial valuation. The rate, applicable for a calendar year, consists of the normal cost contribution rate plus the rate required to amortize the unfunded actuarial liability over the remainder of the plan's 25-year amortization period which began January 1, 1995 using the entry age actuarial cost method. Monthly contributions by the County are based on the covered payroll and the employer contribution rate in effect. The contribution rate for calendar year 2010 is 11.31%. The contribution rates for calendar years 2009 and 2008 were 9.74% and 9.64%, respectively.

The plan provisions are adopted by the Commissioners Court of the County, within the options available in the state statutes governing TCDRS ("TCDRS Act"). Members can retire at ages 60 and above with 8 or

more years of service, with 30 years regardless of age or when the sum of their age and years of service equals 75 or more. Members are vested after eight years but must leave their accumulated contributions in the plan to receive any employer-financed benefit. Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by the County.

Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest, and employer-financed monetary credits. The level of these monetary credits is adopted by the Commissioner's Court of the County within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be expected to be adequately financed by the employer's commitment to contribute. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

**Funding Policy** - The County has elected the annually determined contribution rate ("ADCR") plan provision of the TCDRS Act. The plan is funded by monthly contributions from both employee members and the County based on the covered payroll of employee members. Under the TCDRS Act, the contribution rate of the County is actuarially determined annually. The County contributed using 9.74% for the months of the calendar year in 2009, and 11.31% for the months of the calendar year in 2010.

The contribution rate payable by the employee members for 2009 and 2010 is the rate of 7% as adopted by Commissioner's Court. The employee contribution rate and the employer contribution rate may be changed by Commissioner's Court within the options available in the TCDRS Act.

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Annual Pension Cost - For the County's fiscal year ended February 28, 2010, the annual pension cost for the TCDRS plan for its employees, including the Authority, was \$84,946,672 and the actual contributions for the Authority were \$3,685,317. (This excludes actuarial contributions of \$3,170,351 for Community Supervision, which is not considered a department or component unit of the County.) The annual required contributions were actuarially determined as a percent of the covered payroll of the participating employees and were in compliance with GASB Statement No. 27 parameters based on the actuarial valuations as of December 31, 2008 and December 31, 2009, the basis for determining the contribution rates for calendar years 2009 and 2010. The December 31, 2009 report is the most recent valuation.

Actuarial Valuation Method

#### 10. OTHER POST EMPLOYMENT BENEFITS

### THE PLAN:

#### Plan Description

Harris County administers an agent multiple-employer defined benefit post employment healthcare plan that covers retired employees of participating governmental entities. The plan provides medical, dental, vision, and basic life insurance benefits to plan members. Local Government Code Section 157.101 assigns the authority to establish and amend benefit provisions to Commissioner's Court.

Membership in the plan at March 1, 2009, the date of the latest actuarial valuation, consists of the following:

Retirees and beneficiaries receiving benefits	3,361
Active plan members	14,841
Number of participating employers	5

#### Summary of Significant Accounting Policies

*Basis of Accounting*. The Plan's transactions are recorded using the accrual basis of accounting. Plan member and employer contributions are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable.

Method Used to Value Investments. Investments are reported at fair value, which is based on quoted market prices with the difference between the purchase price and market price being recorded as earnings on investments.

#### Contributions

Local Government Code Section 157.102 assigns to Commissioner's Court the authority to establish and amend contribution requirements of the plan members and the participating employers. The following tables present the criteria for the employers' contribution to the retiree's and qualifying dependent's benefits:

### Retired Prior to March 1, 2002:

				< 8yrs. with proportionate service
Years of Service	10 yrs.	9 yrs.	8 yrs.	and/or disability
Retiree - Employer Share	100%	90%	80%	50%
Retiree - Retiree Share	0%	10%	20%	50%
Dependent - Employer Share	50%	45%	40%	25%
Dependent - Retiree Share	50%	55%	60%	75%

### Retired or Eligible to Retire Prior to March 1, 2011:

Employee's age plus					
years of service	75	75	70-74	< 70	N/A
Years of service	10	8-9	8	4-7	< 4
Consecutive service years					
at retirement	4	4	4	4	N/A
Retiree - Employer Share	100%	80%	80%	50%	0%
Retiree - Retiree Share	0%	20%	20%	50%	100%
Dependent - Employer Share	50%	40%	40%	25%	0%
Dependent - Retiree Share	50%	60%	60%	75%	100%

Eligible to Retire March 1, 2011 or After:

A combination of age plus a minimum of 10 years of service equal to 80 or at least age 65 with a minimum of 10 years of service to receive 100% County contributions for retiree coverage and 50% for dependent coverage. Retirees under age 65 and whose age plus years of service is less than 80 will be required to pay an additional contribution as determined by Commissioner's Court.

Employees Hired on or After March 1, 2007:

A combination of age plus a minimum of 20 years of service equal to 80 or at least age 65 with a minimum of 15 years of service to receive any County contributions for retiree or dependent coverage.

The Plan rates are set annually by Commissioner's Court based on the combination of premiums and prior year costs of the self-funded portion of the plan. The Plan is funded on a pay-as-you-go basis. For the year ended February 28, 2010, plan members or beneficiaries receiving benefits contributed \$4.82 million, or approximately 13.7 percent of total benefits paid during the year. Participating employers contributed \$30.41 million. The total contributions for the year ended February 28, 2010 was \$35.23 million. Total contributions included actual medical claims paid, premiums for other insurance and administrative costs calculated through an annual rate calculation and network access based on a percent of claims paid.

### THE EMPLOYER:

### Annual OPEB Cost

For 2010, the County's annual OPEB cost (expense) was \$89,338,513 (including Toll Road of \$3,704,451) for the post employment healthcare plan. The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the fiscal year ended February 28, 2010 were as follows:

Annual Required Contribution	\$ 91,445,740
Add interest on Net OPEB Obligation	7,000,088
Less adjustment to Annual Required Contribution	(9,107,315)
Annual OPEB Cost	89,338,513
Less Contributions made	(30,407,276)
Change in Net OPEB Obligation	58,931,237
Net OPEB Obligation, beginning of the year	140,001,754
Net OPEB Obligation, end of the year	\$ 198,932,991

### *Trend Information:*

					Per	centage of Ann	ual		
Fiscal Year	A	nnual OPEB		Employer		<b>OPEB</b> Cost		Ne	t Ending OPEB
Ended		Cost	C	Contribution		Contributed			Obligation
2/29/2008	\$	97,628,162	\$	27,418,754		28%		\$	70,209,408
2/28/2009		96,615,958		26,823,612		28%			140,001,754
2/28/2010		89,338,513		30,407,276		34%			198,932,991

The above tables include information for the 5 participating employers to the agent multiple-employer defined benefit post employment healthcare plan that the County administers. Two of the employers, Emergency 911 and Community Supervision, are not considered departments or component units of the County. The annual net OPEB obligation for Emergency 911 and Community Supervision is \$286,167 and \$66,579 respectively for fiscal year 2009 and the net OPEB obligation for Emergency 911 and Community Supervision is \$379,397 and \$0 respectively at February 28, 2010. Toll Road's portion of the net OPEB obligation above is \$10,358,368.

Funded Status and Funding Progress. The funded status of the plan as of March 1, 2009 (most recent actuarial valuation) was as follows:

		Toll Road
	All Participants	Portion
Unfunded actuarial accrued liability (UAAL)	\$ 859,681,747	\$ 25,856,100
Funded ratio (actuarial value of plan assets/AAL)	0%	0%
Covered Payroll (active plan members)	\$ 766,400,980	\$ 34,886,412
UAAL as a percentage of covered payroll	112%	74%

The "All Participants" column in the above table includes UAAL of \$915,483 for Emergency 911 and UAAL of \$16,210,643 for Community Supervision.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. The actuarial assumptions used in calculating the County's UAAL and ARC are elaborated later in this note. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future.

### Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are made on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of

each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. In order to perform the valuation, it was necessary for the County and the actuary to make certain assumptions regarding such items as rates of employee turnover, retirement, and mortality, as well as economic assumptions regarding healthcare trend and interest rates.

In the March 1, 2009, actuarial valuation, a 5.00% discount rate was used. The medical trend rates of 8% for 2009, and 7% for 2010 graded down to an ultimate rate of 5% by 2012 per the actuary's best estimate of expected long-term plan experience.

The actuarial cost method used in valuing the County's liabilities was the Projected Unit Cost Method. Under this method the benefits of each individual included in the valuation were allocated by a consistent formula over the years. The amortization period and method utilized was 30 year level dollar open period.

### Additional Disclosures

Texas Local Government Code, Chapter 175 requires counties to make available continued health benefits coverage under certain circumstances to retirees and their dependents beyond the end of an individual's employment with the County ("Continuation Coverage") by permitting covered employees to purchase continued health benefits coverage in retirement. Texas law does not require counties to fund all or any portion of such coverage.

Because the County is given the authority to pay OPEB for its retired employees, it may incur a debt obligation to pay for OPEB so long as the County follows the constitutional requirement that it have sufficient taxing authority available at the time such debt is incurred to provide for the payment of the debt and has in fact levied a tax for such purpose concurrently with the incurrence of the debt. Any debt incurred in contravention of this constitutional requirement is considered void and payment will not be due. Harris County has not incurred a legal debt obligation for OPEB and has not levied a tax for the same. The County funds the cost associated with OPEB on a current "pay as you go" basis for a single fiscal year through an annual appropriation authorized by Commissioner's Court during the County's annual budget adoption process.

GAAP requires governmental organizations to recognize an actuarially calculated accrued liability for OPEB, even though it may not have a legally enforceable obligation to pay OPEB benefits.

Information and amounts presented in the County's Comprehensive Annual Financial Report relative to OPEB expense/expenditures, related liabilities (assets), note disclosures, and supplementary information are only intended to achieve compliance with the requirements of generally accepted accounting principles (GASB 45) and does not constitute or imply that the County is legally obligated to provide OPEB benefits.

The schedule of funding progress, presented as Required Supplementary Information, following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

### 11. COMMITMENTS AND CONTINGENCIES

#### **Construction Commitments**

The Authority is committed under various contracts in connection with the construction of Authority facilities, buildings, and roads of \$285,321,866.

### **Litigation and Claims**

The Authority is involved in lawsuits and other claims in the ordinary course of operations. Although the outcome of such pending lawsuits and other claims are not presently determinable, management of the Authority believes that the resolution of these matters is not expected to have a materially adverse effect on the financial condition of the Authority. There are several civil cases that have resulted in settlements, consent decrees or are expected to have financial impact on the Authority in subsequent fiscal years. An additional amount of \$1,284,512 is considered possible for payment in relation to other cases; accounting standards require that this amount be disclosed, but it is not recorded as a liability in the financial statements.

### **Joint Deposit/Escrow Account**

On July 23, 2002, the Commissioners Court approved an agreement for a joint deposit/ escrow account between the Authority and Metro and to deposit \$13.8 million in the account. An additional \$16.4 million was approved by Commissioners Court in November 2003 and deposited into the escrow account. The Authority's construction and operation of toll road facilities within the Westpark Corridor may necessitate Metro's incurring architectural and engineering costs in connection with its future development of its public transit projects in the Westpark Corridor over and above the costs it would otherwise incur if no toll road facilities were constructed in the easements acquired by the Authority. The terms of the escrow agreement provide that the principal and interest can only be used if and when Metro elects to proceed with the development of a transit system in its portion of the Westpark Corridor. The escrow agreement terminates December 31, 2025 and any funds remaining in the escrow account will be disbursed to the Toll Road Authority.

#### 12. TRANSFERS AND ADVANCES

The Commissioners Court approved a \$120 million annual allocation for funding of a County thoroughfare program to increase general mobility.

In September 2006, the Authority advanced \$26 million to the County's General Fund to cover the County's repayment of a long term note on behalf of the Harris County Sports & Convention Corporation. Repayment of the note plus interest by the Harris County Houston/Sports Authority to the County and subsequently to the Authority will be made beginning in 2011 through 2020.

In October 2008, Commissioners Court approved an interfund borrowing and line of credit from the Harris County Toll Road Authority to the Hurricane Ike Disaster Fund, not to exceed \$60 million. The borrowing and line of credit had a one-year maturity with principal and interest due at maturity with an option for Commissioners Court to extend the note for an additional year with principal and interest payable at maturity. During the fiscal year the note was extended for an additional year. The interfund borrowing was \$34 million at February 28, 2010.

#### 13. REVENUE LEASES

### **Operating Leases**

The Authority is the lessor in several operating leases for office space. The leases will expire over the next 11 years. The building is carried at \$806,246 with accumulated depreciation of \$113,472 for a net investment in the property of \$692,774. The following is a schedule of minimum future rentals on non-cancelable operating leases of February 28, 2010:

<u>Fiscal year</u>		
2011	\$ 452,969	
2012	452,968	
2013	452,969	
2014	452,968	
2015	452,969	
2016-2020	973,611	
2021-2025	135,800	
Total minimum future rentals	\$ 3,374,254	

The total minimum future rentals amount above does not include contingent rentals which may be received under certain leases based on percentage of receipts. Contingent rentals amounted to \$11,700 in 2010.

### **Direct-Financing Leases**

The Authority leases equipment to the City of Houston for use at the Airport. The Authority's net investment in direct financing leases is \$175,750. This lease was terminated in January 2010 with revenue expected to be collected through July 2010 and is not considered a significant part of the Authority's business activities in terms of revenue.

### 14. RECENT ACCOUNTING PRONOUNCEMENTS

GASB Statement No. 51, Accounting and Financial Reporting for Intangible Assets ("GASB 51"), establishes accounting and financial reporting requirements for intangible assets to reduce these inconsistencies, thereby enhancing the comparability of the accounting and financial reporting of such assets among state and local governments. GASB 51 will be implemented by the Authority in fiscal year 2011 and the impact has not yet been determined.

GASB Statement No. 53, Accounting and Financial Reporting for Derivative Instruments ("GASB 53"), addresses the recognition, measurement, and disclosure of information regarding derivative instruments entered into by state and local governments. GASB 53 will be implemented by the Authority in fiscal year 2011 and the impact has not yet been determined.

GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions ("GASB 54"), establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. GASB 54 will be implemented by the Authority in fiscal year 2012 and the impact has not yet been determined.

GASB Statement 58, Accounting and Financial Reporting for Chapter 9 Bankruptcies ("GASB 58"), establishes accounting and financial reporting guidance for governments that have petitioned for protection from creditors by filing for bankruptcy under Chapter 9 of the United States Bankruptcy Code. GASB 58 will be implemented by the Authority in fiscal year 2011 and in not expected to impact the Authority's financial disclosures.

GASB Statement 59, *Financial Instruments Omnibus* ("GASB 59"), updates and improves existing standards regarding financial reporting of certain financial instruments and external investment pools. GASB 59 will be implemented by the County in fiscal year 2012 and the impact has not yet been determined.

Total	\$ 349,341,225	\$ 392,992,697	\$ 428,867,531	\$442,015,417	\$ 455,547,954

- (a) Includes toll revenues collected for the Airport Connector.
- (b) Spur 90A opened in 2006.
- (c) Consist of EZ tag fees, video enforcement center deposits, unpaid tolls, bank debits and credits and replacement identification fees.
- (d) Revenue includes amounts attributable to the interoperability program with NTTA. In August, 2003 Commissioners Court approved an interlocal agreement that allows for tag patrons to use both the HCTRA and NTTA toll systems. The figures shown represent NTTA tag holders' usage on the HCTRA system and may include revenue from any segment of the system.
- (e) Implemented in February 2006, an interlocal agreement allows for tag patrons to use both the HCTRA and the TxTag administered by the Texas Transportation Commission. The figures shown represent TxTag tag holders' usage on the HCTRA system and may include revenue from any segment of the system.
- (f) Implemented in January 2008, an interlocal agreement allows for tag holders' usage to the HCTRA, NTTA, Central Texas Regional Mobility and TxDOT toll collections systems within the state. The figure shown represents toll collections attributable to the interoperability program with CTRMA.
- (g) Airport GT and Park opened August 2008.
- (h) Katy Managed Lanes opened in April 2009.

<sup>(</sup>a) Includes Flood Control District debt paid for by the District's ad valorem tax revenues and debt paid for by the County's ad valorem tax revenues as a result of refunded commercial paper.

### TOLL ROAD AUTHORITY ENTERPRISE FUND OF HARRIS COUNTY, TEXAS

### **COUNTY-WIDE AUTHORIZED BUT UNISSUED BONDS**

Schedule 17 (Unaudited) (Amounts in Thousands)

As of February 28, 2010, the following County-wide ad valorem tax bonds authorized by the voters at elections held in September, 1983, November, 1999, November, 2001, and November, 2007 remain unissued.

The Schedule reflects the County's use of voted authority when it issues general obligation commercial paper notes pursuant to its Series B (parks and libraries) and Series C (roads and bridges) programs.

The Schedule also shows Port of Houston Authority valorem tax bonds that were authorized by the voters at elections held in November, 2007 but remain unissued. Harris County has no legal responsibility for repayment of these bonds.
